

Dear

I am writing this letter to give my <sup>own</sup> opinion about school uniforms.

The school uniforms are designed to create an equal environment in every school. It is a good thing because I never was criticised in your school. For example, in my old school, students were always criticised for their own style, like your shoes or just your clothing. When I was wearing different clothing that ~~never~~ everyone, all of the students, was looking and judging me. <sub>for</sub>

Of course, to wear every single day the same outfit is a little bit annoying because you can't show your own personality and your own style.

In conclusion, even if sometimes I would like to wear my own clothing, it is a pleasure to wear uniforms and to not have problems →

with other students. Moreover, the equity environment in school is very important.

Thank you to read my letter, and thank you for your co-operation.

Yours faithfully
